

SAFETURE FREEMIUM

Get introduced to the Safeture platform with a freemium account.

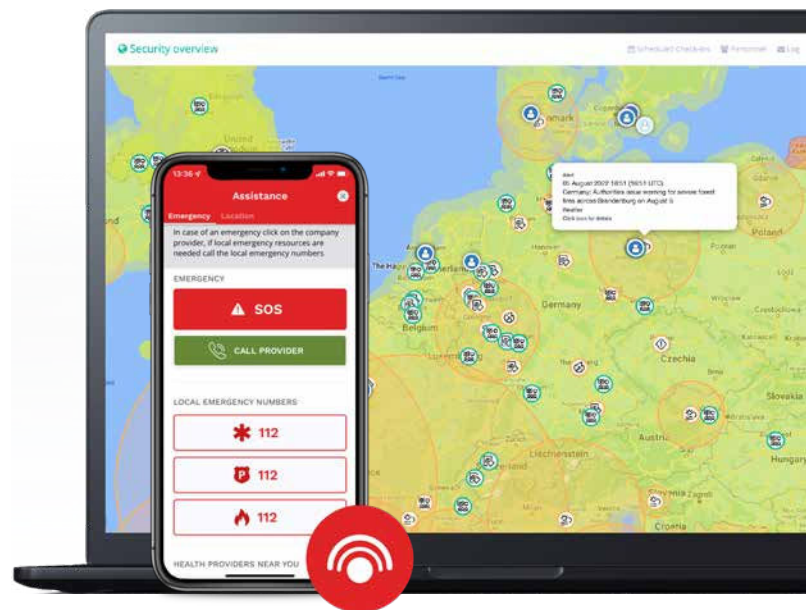

What is Safeture Partner Freemium?

Safeture Freemium is an account setup that helps you access the Safeture Platform, it gives you the opportunity to try it out and to get familiar with the service before making a purchase.

The Safeture Freemium includes 1x Administrator license & 5x User licenses, all users will gain access to the Web-portal & Mobile Application. Following modules and functions are included in the Safeture Freemium account:

Web Portal:

- Dashboard with easy access to get an overview of all users.
- Security Overview with graphical map and information layers to enable easy access when informing, locating and communicating with users.
- Analytics & Reporting with easy access to KPI's regarding Emergencies, Travels, Risks, Alerts and Usage. All data exportable in PDF or csv/XLS format.
- Country Information and risk assessments for over 230 countries/regions that can be fully customized by Administrator users.**
- Real-time Global Alerts with updates

on serious incidents or developments 24/7/365.**

- Travel Booking module to easily access travel data.*
- Mass Communication to communicate with an individual or a group of users based on their place of work, position, or status via inApp, SMS and Email. Confirmation of received and read status. Inbuilt resilience in areas of poor mobile coverage.
- Medical Database containing list of medications and conditions.
- Access to Marketplace.

Safeture Freemium

How do I setup a Freemium account?

The process of setting up a Freemium account is manually done via email through your medical- and/or security assistance provider or via their landing page on www.safeture.com/partner. Below in the table are the account details Safeture needs for the setup.

Once the Freemium account is created, you will be informed via email with an attached 'Get started' document including set up guides that you can follow. A Freemium account will be set up within 24 hours Monday to Friday.

Below are the account details needed for the Freemium account setup:

- Organization name
- Admin first name
- Admin last name
- Admin email
- Admin phone

FAQ

What is the difference between a Trial & Freemium account?

A Trial is limited to 30 days with full functionality. A Freemium account has no 30-day limit but with limited functionalities.

What does it cost to upgrade and add more users?

If you wish to increase the number of users or provide administrator access to other colleagues, please get in touch with your primary contact at your medical- and/or security assistance provider who can help you with this through Safeture.
