

Product feature

Co-branding

Increase awareness and let your brand reach all your users!

With our co-branding feature you will have your logo and colors more visible to your users. It's the same great Safeture app but dressed up in your brand.

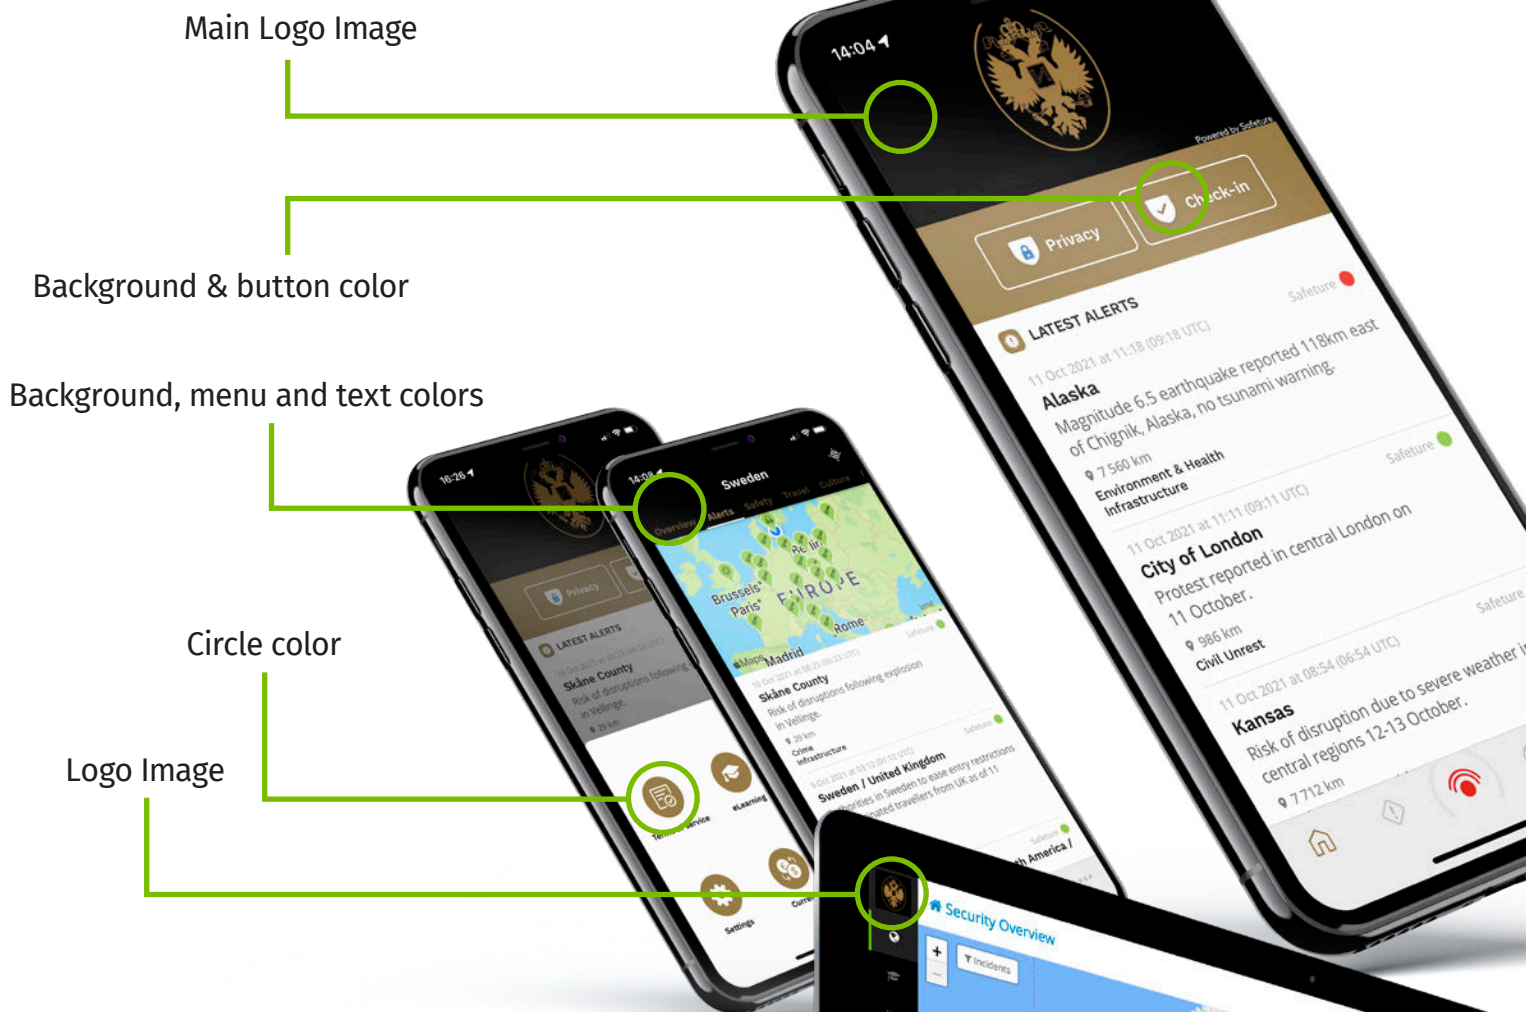

The following items are possible to brand:

Employee view (app)

- Main Logo Image
- Background color of the “Report my Location” area
- Color of the “Report my Location”-button
- Main tab bar menu colors
- Background color of top header
- Text color of top header
- Circle background color of the icons in the more-menu
- Small icon color on the landing page

Admin view (ISO)

- Upper left logo after login

Main Logo Image
